Mortgage Loan Originator (MLO) Unique Identifier ID# List

The National Mortgage Licensing System & Registry (NMLS) Consumer Access service is a free web based service for consumers to confirm that the Financial Institution or Mortgage Company as well as the mortgage professional with whom they wish to conduct business is either registered or licensed. The unique identifier ID# will enable consumers access to an individual mortgage loan originator's profile stored in the Registry, including the mortgage loan originator's publicly available registration information, any State mortgage licenses held (active or inactive), employment history, and publicly adjudicated disciplinary and enforcement actions. Users of NMLS Consumer Access are subject to the Terms and Use Agreement provided on the NMLS website; <http://www.nmlsconsumeraccess.org>
